

Guide to Graduation

Need help planning your Preschool or Kindergarten graduation? This handy guide will walk you through the basics, so you can get started planning a fun and memorable event for your little grads and their families!

Choose a Date & Location

The first step in planning your graduation event is to choose a **date**. Do this as far in advance as possible, even as early as the beginning of the school year, so you have plenty of time to plan and get everything you need.

When choosing a **location**, consider the number of graduates, how many people will be attending, and how much you want to decorate.

Location Ideas

- ★ *Your school gym or cafeteria*
- ★ *Your center's common area*
- ★ *A local elementary or high school*
- ★ *An outside area, like a playground or park.*

Spread the Word

Once you know the date of your graduation event, you'll want to get the word out, so parents can plan accordingly.

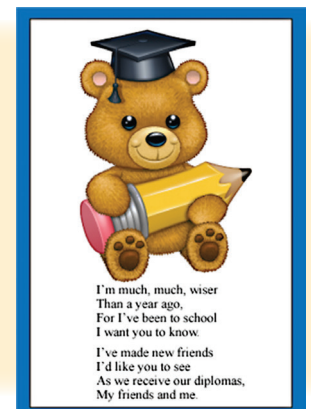

Easy Ways to Promote Graduation

- ★ *Hang banners and signs all over your school or center.*
- ★ *Put a write-up in your school newsletter.*
- ★ *Use social media - post on Facebook, send an e-mail, or tweet the info.*
- ★ *Advertise on your school's website.*

Tip: Send out graduation invitations!

You can order formal invites, print out informal cards on your computer, or even send out E-vites. Send invitations out 6 to 8 weeks in advance, and be sure to include all the important information, like date, time, and ceremony location.

Order Caps & Gowns

If you're doing a formal graduation ceremony, dress your kids in traditional caps and gowns. Your little graduates will feel like "big kids," and they'll look great for photos.

Measuring For Caps and Gowns

- ★ Plan a measuring day and enlist a parent or school volunteer to help.
- ★ Measure each child's height (shoes on) from top of the head to the floor.
- ★ Measure in feet and inches.
- ★ There is no need to measure head for caps; they are one-size-fits-all.

Note: If you are ordering more than 3-6 months prior to graduation, add 1/2" to 1" to child's height to account for growth.

- ★ Kids grow fast, so order a few extras, just in case.
